POST OP EYE DROP INSTRUCTIONS

AFTER CATARACT SURGERY:

****** DO NOT REMOVE EYE PATCH******

(It will be removed at the Dr's office. Please bring following eye drops with you)

- **OFLOXACIN** After post op appointment, instill one (1) drop of Ofloxacin in your _____ eye (4) times a day for 1 week then STOP.

- **PREDNISOLONE** After post op appointment , instill one (1) drop of Prednisolone in your _____ eye (4) times a day for 1 week , then 2 times a day for (2) weeks then STOP.

MAKE SURE TO SHAKE PREDNISOLONE BOTTLE

When using the drops use them 3-5 minutes apart. Do not touch the tip of the bottle to your face, finger , or eye.

Wear the eye shield at night for two weeks . After cataract surgery your eye may become more light sensitive. It is recommended to always wear sunglasses when you are outside.
